IT WOULD ONLY BE DOING JUSTICE,

american Exhibits at Quito—The United States, Too-The New Secretary of War-Speaker Crisp Still Con-

fined to His Room, Etc., Etc.

Yesterday's Executive Session of the Sonate. Washington, Dec. 17.—The executive ession of the senute was spent in confirming recess appointments of the president. A large number of these were confirmed, but owing to the failure of the senate to pass the customary resolution notifying the president of the fact, their names were not made public. The nomination of Stephen B. Elkius to be secretary of war was read and referred in the usual manner to the committee on military affairs for action. The nominations of the six cirecit judges sent to the senato yester-day were not brought forward by the judiciary committee for action.

There is some dissatisfaction among republican senators over the nomination of Mr. Elkins, but this is believed to be not deep enough to cause any op-position to his confirmation. The dis-satisfaction is said to be on the part of some of the New England and a few western senators. Their alleged ob-jection to the appointment is based on sectional grounds—the New Englanders believing that the war portfolio should have gone to their section, while the western men are put out because Acting Secretary Grant was not promoted. These gentlemen, however, express no wish to fight Mr. Elkins' confirmation, and it will probably be put through without opposition.

It Would Only be Doing Justice. Washington, Dec. 18.—The report last the president has decided to restore the duties on sugar, teas and cof-fers coming from constries which have so far fatled to enter into reciprocity greements with the United States is recepted as true in official circles, but cannot be absolutely authenticated, state department officers will not go to far as to admit that such is the fact nor will the officers in the treasury department, but al., in a semi-mysterious way say they would not be sur-

orised if such action were taken. The loss of revenue since the duty on sugar was abolished and, the drain on the revenue in meeting the sugar bounty has been seriously felt and with ountries from which the United States receives no benefits in exchange for the free entry of their products, it is argued that it would only be doing justice to the United States to restor the duties.

American Exhibits at Quito.
Washington, Dec. 18.—The bureau of American republics has been in-formed by the consul general of the United States in Benador that the presilent of that republic has decreed the udmission, free of duly, of both import and export, of all exhibits which may be sent from the United States to the national exposition to be held in Quito during the months of February, March and April, 1832. It is especially desired that the manufacturers of the United States should send a good exhibit of agricultural machinery and all implements for agricultural purposes to the exhibition, as a good market would be sened in that country to our manu-

At the close of Mr Turpie's remarks Mr. Stowner tanticipated his notice for Monday next by delivering his promised after speech in favor of free coinage. Mr. Stowart reviewed that part of the provident's message relating to free coinage. He said that the president was laboring table a misapprehension when he stated that the act of 18th would ruise silver to nay and keen that the advocates of free colonge believed that the act of 1890 would raise silver to par and keep it there. That act, he observed, was opposed by the democrats who roted solidly against it. The anti-silver republicans, with the votes of the free colonge topublicans, passed the set as a compromise measure. The act provided for the redemption of treasury notes in gold and silver coin, and it was the duty of the secretary of the treasury to the secretary of the treasury to come one warrant of low to the sale of bonds to buy gold for the purpose of redeeming treasury notes issued unpurpose of redeeming treasury notes issued unlow for the sale of bonds to buy gold for the purpose of redeeming treasury notes issued under the act of 1850. On the Robbery of the United States Mail Wagon in Chicago. Chicago, Dec. 18.—It is now believed that Frank Porter, the man who was shet and killed by William Ray in a low saloon on Halsted street yesterday morning, was one of the highwaymen

who held up the United States mail wagon on Mather street Tuesday night, and robbed Uncle Sam of something like \$2,300. Ray, who had not been apprehended up to midnight, is also suspected, and it is thought the shooting was caused by a dispute over the livision of spoils.

John Hore, proprietor of the saloon in which the tragedy occurred, tells a story that forges a chain of circum-stantial evidence around Porter, which would be difficult for the latter to combat were he alive, and some interest ing developments in the case are promsed to-day.

Uncle Sam vesterday took a hand in the search for the robbers, Postmaster-General Wanamaker offering a reward of \$500 each for any information that

will lead to the arrest and conviction of the five desperadoes. Another Society Man Charged with Embezzlement.
Kansas City, Mo., Dec. 18,-John L.

Ferguson was arrested yesterday morning charged with embezzling \$20,000 from the National Bank of Kansas City, where he had been employed for about eight years as book-keeper. He was summoned before the president Wednesday evening and confessed the crime, saying that he began taking money August 1, 1889, and that since that time he had spent \$20,000 belong-ing to the bank. He has no money to replace the loss, though the bank is partially secured by an indemnity bond for \$6,000 given by Ferguson and signed

by the American Surety Co. Ferguson is a well-known society man and is about 26 years of age. About eight years ago his relatives, customers of the National Bank of Kansas City, secured him a position there, and he has been one of the most efficient and valuable cierks in the in-

Severance of Diplomatic Relations Between France and Bulgaria.

WARLIKE ACTIVITY BY THE LATTER.

How the Sultan of Turkey is Likely to Profit by the Present Complications -The Hand of Great Britain Seen in the Matter.

Paris, Dec. 18.—All the statements made to the United Press in regard to he serious state of affairs caused by the severance of diplomatic relation between France and Bulgaria, owing to the expulsion from the latter country of M. Chadouine, a French journal ist, are much more than borne out by the actual facts, and more recent events show that not only was the situation in no way exaggerated, but that the incdent is more serious than at first sup-

There is a suspicious calm in high diplomatic circles and very little is to be gathered as to the nature of the almost constant interchange to tele graphic dispatches which has been go known, however, that the French consuls at Rons Tchouk, Bourgas and Philippopolishad followed the example of M. Tauel, the French consul at Sofia, and acting upon instructions re-ceived from their government, have left Bulgaria.
It should be explained, however, i

spite of the serious aspect which the Chadouine Incident has assumed that France will not resort to arms in orde o enforce her demand for satisfaction for the expulsion of the journalist referred to. But there are war clouds on the horizon for all that. For instance, the Bulgarian minister or finance has started for Vienna with the avowed intention of raising money of Rulgaria. The Bulgarian govern ment, as if apprehending trouble, is already hurrying reinforcements of troops to Rous Tchouk and Philippopolis, but it is difficult to find any rea cause for this warlike activity, for i would hardly be possible for France to attack Bulgaria without forcing the passage of the Dardanelles and bombarding Varna from the Black sea.
Such a step as this, it need hardly

added, is not on the tapis at present so far as the general public knows. O course France might have the co-opera tion of Russia in this matter, but suc an eventuality is not even discussed by the alarmist papers up to date.

The Russian papers, it is true, have taken up the discussion of the Cha douine incident in a manner that show their sympathy is with France. In substance they say that Bulgaria has acted in a most insolent manner to wards France and they severely censure her for so doing, while hinting that she must not try the forbearance of France beyond a certain point or sh will have to take the consequences of

The Republique Francaise to-day says that the sultan of Turkey, who is still recognized by the powers as the sovereign of Bulgaria, has asked the French government, through the Turk ish minister in this city, Essad Pasha who is also in that capacity the repre entative of Bulgaria (the latter being hereditary and constitutional more archy under the suzerainty of the porte) for permission to settle, as suzerain of Bulgaria, the matters in dispute between that country and France. This is looked upon as a move at the suggestion of Great Britain, and would, if carried out as proposed, mean a re-acknowledgment of the authority of the sultan over Bulgaria, and a decided strenghtening of the latter's position in Europe. This, of course, would mount to a setback for Russia, and consequently, as things now stand, for

her ally, France.
In connection with the apand officers of the bank at 6:30 o'clock the Turkish minister it should be added Bulgaria has not been recognized by the powers, and, therefore, Bulgaria wers.

All of these are sustained by private dona-tions and entertainments held under the auspices of the ladies who have the schools in charge.

The crime, although a cold-blooded affair, was not in the strictest sense of the word, promeditated. Fitzgerald was a professional burglar and all-round thief. Fitzgerald was found guilty of murder in the first degree and sentenced to hang on November 19 last. Gov. Campbell granted him a respite until to-day in order that the supreme court might pass on his case. The highest tribunal sustained the verdict of the Mahoning county

Curtis were consigned to the grave in Greenwood cemetery yesterday afternoo n the presence of a large number of relatives, neighbore and old friends, includng many business men, county and city officials, who had been associated with the departed in the busy affairs of life, The officiating clergyman spoke the Methodist burial service at the grave and

offered a brief prayer, which closed the sad duty of the living to the dead. The funeral services were held at the sidence of Otto E. Cartis, son of the ecessed, at 359 West Decatur street, beginning at 2:30 o'clock. The rooms of he large dwelling were filled, as were also the halls, and quite a number who came a little late were unable to gain

ntrance. The friends present included the circuit and county court officials, township officers, city officials, the only police, members of the Decatur Medical ociety, scores of business men and old esidents of the city and county. Relaives present from a distance were Mrs. Edward Curtis and Carlos Curtis, of Tus-

Bert Gher and Frank Bunn-gave the vocal selections "Rock of Ages," "Lead, HARRY MILLER, the sweet tooth-filler, Kindly Light," and "Jesus, Lover of My Soul." Rev. And yet it is possible that at such times and in such moods as they necessarily generate we may unduly eraggerate the vanity and emphress of life. While we cannot perpetuate our individuality on earth, we may and do, nevertheless, incorporate it in the organic life of society; so that it is emphatically true that "no man liveth to himself and no man dieth to himself," and it is further true that "whether we live we live unto the Lord, or whether we die we die unto the Lord." So that every mar's life is a part of the plan of the universe, and the essential and fundamental principle of that plan is that perpetuity of influence shall be attained by the sacrifice of personal energy. It is as true in the realm of mind and character as it is in that of nature that "except a grain of wheat fall into the ground and die it shideth alone, but if it die it bring sh forth much fruit." So that our Savior was enunciating a fundamental truth of nature when he said, "Whosover will save his life shall lose it, and whosover will save h Water street, carry a fine assortment of mun came not to be ministered unto, but to minister, and to give his life a ran-

Mr. John P. Gillett, of Elkhart, some time ago sold 100 head of two months cols, Sterling and George Curtis, of old calves to Mr. Wolcott, of Texas, for Oakland, Ill. Upon the rich black casket | which he received \$50 a head. This marks a new departure in the cattle business. The calves were taken to Texas and put with Texas cows to prevent them having the Texas fever. It is said that cattle raised in this way do not have and do not communicate Texas fever. The calves were fed on flax meal during their shipment and, as soon as they arrived, were put with Texas cows, who suckled them. Mr. Gillett has heard from Mr. Wolcott and he says that but three of these calves so treated have died.—Pan-
